For PE and PVC pipes recommends use steel inserts

Product description (standard execution):

- Protection against pull out of the pipe made of stainless steel A4
- Acceptable axial deviation up to $\pm 8^\circ$
- Applicable to all types straight naked-end pipes
- Elastomer gasket enabling easy assembly
- Body and flange made of ductile cast iron EN-GJS 450-10
- Stainless steel bolts and nuts
- Plastic protection caps at screw ends
- Installation in any position allowed
- Enables connection of two pipes with different diameter each
- Epoxy coating to EN 14901

Application:

Water line networks: potable water of natural gas networks and other chemically inert fluids. Connection of straight naked-end pipes made of cast iron iron, asbestos-cement or PVC.
Working pressure up to 1.6 MPa, temperature up to +50°C

Test control:

Water pressure test according to EN 1074-1; EN 12266-1
Seat: 1,1 x PN
Body: 1,5 x PN
